

Antibody to Human Collagenase

(Monoclonal Mouse)

| | |
|-------------------------|---|
| Cat. No.: | CA-1188-A3 |
| Clone no: | RRUCL3 |
| Isotype: | IgM |
| Cross reactions: | Reacts only with human collagenase and with no other human proteins so far tested. Reacts with collagenases but cannot be used for Western blots. Does not inhibit biological activity. |
| Presentation: | 100ug purified by affinity chromatography (c=0.64 mg/ml) in PBS containing 0.02% (w/v) azide. |
| Applications: | Untested in ELISA as yet. Immunolocalisation (use at 1 ug per section). |
| Storage: | Store at +4. For extended storage, freeze in working aliquots at -20. Avoid repeated freezing and thawing. |
