

Anti-Human PLASMINOGEN KRINGLE DOMAIN 1-3

(Polyclonal Rabbit)

| | |
|-------------------------|---|
| Cat. No.: | CA-490f |
| Antigen: | Highly purified antigen. Antibody produced by a standard protocol using Freund's complete adjuvant with boosters in incomplete adjuvant. |
| Titre: | At least 1/32 by double diffusion or 1/1000 by ELISA. |
| Cross-reactions: | Single antigen reactivity with minimal cross reactivity with other human serum proteins. |
| Applications: | Suitable for a variety of techniques including: a) Detection of target antigens by Double Immunodiffusion / Immunoelectrophoresis b) Quantitative Assay by ELISA / Laurel Rocket IEP c) Immunofluorescence |
| Presentation: | Unconjugated antibody offered as whole serum product in liquid form, stored at -40° C. |
| Storage: | It is recommended that on arrival antibodies should be split into working aliquots and either refrozen or stored at 4°C in the presence of 0.1% sodium azide preservative. Avoid repeated freeze-thaw cycles. |
